**REQUEST FOR WITHDRAWAL OF FINALITY OF OFFICE ACTION
AND RESET OF STATUTORY PERIOD FOR RESPONSE**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

June 13, 2003

Sir:

The Applicants have received a Final Rejection, mailed June 4, 2003, for this application. The Applicants request withdrawal of the finality for the following reason.

In the prior, non-final Office Action dated December 23, 2002 (paper no. 7), claim 23 (among others) was rejected under 35 U.S.C. § 102 as being anticipated by Yoshida U.S. Patent No. 6,445,001. Concerning claim 23, the Office Action stated that Yoshida discloses a conductive layer that is electrically isolated from any bump. In reply, the Applicants pointed out that Yoshida, in fact, does not teach this feature (Reply dated March 24, 2003).

In the instant final Office Action, claim 23 is newly rejected under 35 U.S.C. § 102 as being anticipated by Strauss U.S. Patent No. 5,719,449. Strauss is said to show a conductive layer that is electrically isolated from any bump. There is no rejection over Yoshida, taken individually or in combination with any other reference. Accordingly, the rejection of claim 23 has been changed to a different ground.

Ordinarily, a rejection on a new ground can be made final if the rejected claim has been amended so as to require the new ground for rejection. However, claim 23 was amended only to broaden its scope (specifically, to change "wirings", "bumps", and "pads" to --wiring--, --bump--, and --pad-- respectively). Significantly, the language concerning the conductive layer being electrically isolated from any bump was not amended at all. Accordingly, the switch in references underlying the rejection was not necessitated by any amendment to the claim.

In view of the foregoing facts, the Applicants submit that the rejection should not have been made final, and request withdrawal of the finality of the Office Action. The Applicants also request a reset of the statutory period for response to coincide with the mailing date of the reply to this Request, inasmuch as the Applicants' decision as to how

to respond to the Office Action depends on whether the Office
Action is final.

Respectfully submitted,
